We notice in the Glenville Pathfinder that Hon. Geo. H Moffatt will start a Democratic paper soon, at Charleston.

Mott Wallace, Esq., is busy as sessing the personal property of the Edray and Lelels districts, as deputy of C. O. Arbogast.

-At Staunton, Ben Hite was was found guilty of the murder of Henry Weeks and sentenced to Henry Weeks and sentenced to wanted private subscriptions to confinment in the penitentiary for the road, so they went back east twelve years.

Messrs. A. M. McLaughlin and M. D. McLaughlin brought a big drove of cattle to their places One thing is sure, if they want on Elk, from their Greenbrier subscriptions to help to build a farms this week.

-The cattle are being driven to the grazing lands. Droves are com-ing from Virginia and other points, and the bluegrass country of West Pocahontas will soon be full of stock cattle.

The rain that fell on night of the 7th of this month seemed to have been particularly heavy on the head waters of Elk and Valley Rivers, and those rivers were higher than they have been for years.

Attention is called to the advertisement of the Warwick place near this town which is offered for rent. This is a finely improved farm, consisting of about two hundred acres of fine sod, and is in first class condition.

There is a report of general circulation that Pete Kramer, the main witness in the Collins murder case, was drowned between Marlinton and Ronceverte. He started from this place on April 5th, in alight skiff and has not been heard from since. Having word direct from Ronceverte, we may safely say that the report has no truth in it.

-In Charleston last week a bold Lochinvar, Col. A. D. MacCorkle, brother of Governor MacCorkle, chartered a special train to carry he and his intended to Ohio when they were united in marriage. The lady was Miss Come Comstock. a prominent society leader of Charleston. The elopement was quite a success, and a great improvement over the old-fashioned style riding horses to death through the mud

-Col. R. S. Turk, of Staunton, the owner of the old court-house building at Hurstersville, is actively engaged establishing a school at that place. The village of Huntersville is admirably adapted to furnish the site of a good school, being beautifully situated and possessing suitable buildings for the accommodation of any number of students. The character of school Col. Turk has in mind is on the style of a normal, and destined to fit young men and women for the profession of teaching or for entering college, as well as to furnish a business course, with typewriting and stenography for those who de-Rev. C. M. Sarver has been sta and stenography for those who desire it. has the price of horses fallen so him. low. What with the electric and railroad development, the bicycle, and the increase of tramps, the horse is going to the wall. The supply is greater than the demand, and until this is adjusted, a process which is going on now, hosres will be dirt cheap. The report from the last horse market at Harrisonburg, Virginia, says that the best were selling at \$35—horses which would have brought \$150 easily a few years ago. In Chicago 3000 horses were sold for \$3 a head to a man who killed them to fatten hogs on their carcasses. Recently Mr. W. McClintic, the extensive stock raiser of Buckeye, became the owner of an abnormal lamb. The lamb would have been a great curiosity if it could have been kept alive. The deformity consisted in the shape of its head which was perfectly formed with the exception of the lower jaw, which was missing, giv-ing the lamb's head a snake-like appearance. It had no tongue; and a very small opening through the throat." It was a fine, strong lamb but could not live. The head was sent to this office, and and was on exhibition for several days, and it did have a very pecuhar look: One tenderfoot said the head lacked upper teeth, but he must have been mistaken.

Messrs. Machen, of New York, and Rickard, of Harrisonburg, were here this week in the interest of the much talked of railroad to be built through this country They spent the night at the Cunningham House, and while here had private talks with some of our

prominent townsmen, but from what we can gather these talks did not amount to a railroad by a good deal. They told one man the road might run through Pendleton or Hardy Counties, West Virginia. From another we learned that they without giving much satisfaction to the public, and without fixing the date of arrival of the first train. railroad, Highland is not a very good locality to get. them. -Highland Recorder.

-Charges have been preferred against two of the faculty of the bird's eggs. But the people stayed West Virginia University. One and shouted themselves into a against the United States Army pretty state of hoarseness. Marofficer stationed there as commandant of the cadet corps for using but the muddy roads and heavy the gymnasium and commencement halls for dances, much to the discomfort of some, and also against Dr. Hartigan, the eminent for their own county. scientist, whose work has done much to elevate the college from matched, and when the first half mediocrity, and who is now charged with neglect. All the fools are not yet dead, or graduated, at Morgantown."

The year of 1895 delights in anything that savors of a storm, The Easter storm came as surely as if it knew that it was billed to arrive on time. The frosts have set the sugar trees running again. which is an unusual occurrence after the middle of April. Last winter's snow is still in the mountains six minutes of the finish, the ball and a very fine snow fell on Easter Sunday.

-FOR RENT.-The pasture lands of the heirs of C. E. Warwick, deceased, on Stoney Creek. For terms apply to R. E. L. Doyle, on the premises, or address John C Warwick, Hinton, W: Va.

-NOW IS YOUR CHANCE !!- All clothing I have on hand will be closed at first cost for cash. This sale will continue for about 5 days P. GOLDEN. Don't miss it.

-Some changes are being expected in the ownership and management of the hotel proprietors of this town soon.

## Personal.

Rev. John A. Taylor was in town Monday. Among the prominet visitors in

town this week was Col. Geo. S McNeel, of Academy.

# BY THE HARDEST.

Mariloton Wins Again from Mingo. Fight to the Finish.

Once again the carefully trained athletes of our progressive town have met the hardy Englishmen on the field and after a hard-fought battle of ninety minutes won the football game by the score of 2:0. This event closes the season.

One peculiarity of this game which has grown so popular in the last few years with our muscular race, is that there are dozens who prefer to see the game played to playing, and this was nev-er more fully proven than in the game of last Saturday. About three hundred persons, among whom were many ladies, watched the game during a driving storm of snow and rain, hail and sleet, which almost blinded the players. At one time the ground was cover-

ed with hail-stones as large as linton did not lack for "rooters," rains had kept the Pocahontas partisans away, and the people of Randolph shouted right loyally

The teams seemed to be evenly ended it was plain to be seen that the game would go to the side which outwinded the other. Skill and strength seemed balanced, and Marlinton-we had gone to Mingo to win-had only one hope left and that was in endurance. It did not prove a false one, and in the last few minutes the pace seemed to tell on several of the Mingo men, and was actually crowded through the goal and though the tremendous resistance of the giant backs of Mingo said "no thoroughfare," the Marlinton forwards supported by their backs would not acknowledge this and so "we fetched her."

"One goal begets another," and, though the time given us was but four minntes, another goal was made by a long low shot by Lew Yeager which the Mingo goal keeper failed to stop, much to is distress.

The game was admirably umpired by Mr. Arthur Lawson, a true over of sport, and to whose indefatigable efforts much is due for prisoner is in this cage, and if the the many interesting events in the rules are adhered to the jailer will way of out door sports which have always have a steel wall between become institutions in the English him and his guests, although the colony at Mingo. The dec-orations of the field were very striking. The goal posts and bars were painted in the colors of the two and blue, and the confines of the ground were marked by the "Stars-

# THE NEW JAIL.

#### A DESCRIPTION OF ITS CONVENIENCES. A BY THE ARCHITECTUBAL EDITOR.

The new jail proper is absolutely. fireproof, for all exterior and interior walls are solid brick, all floors and ceilings are solid cement concrete packed on arches that are carried by steel girders from wall to wall, and the roof is covered with slate. There being practically no wood to decay, there will be no expensive repairs or renewals need ed for generations to follow. There are no hollow places in walls or floors to harbor vermin, the best all buildings for indiscriminate, collections of humanity.' The walls are laid and plastered and will barden year after year.

The design as is shown in our exterior view, while indicating a compact whole, embraces three distinct divisions, to-wit : A residence in front, and office, guard room, hospi tal room, and detention room, intermediate and jail proper in the rear. These several departments are as fally separated by solid walls as though under separate roofs. The residence has central halls and staircase, with parlor and family room on this floor. The basement has dining room, kitchen, furnace and fuel room. On the first and second floors each room has a nice oak mantelpiece artistically design-

All doors have movable transoms, and the finish is polished and varnished in a superior manner

The prisoners all enter the jail through the guard room in the inlocated the inspection and search rooms, the hospital, female and light offeuse and detention cells. the" ball stayed dangerously near This being the only entrance to the county. the Mingo goal. Finally within rear cage room, which is built of six minutes of the finish, the ball two tiers of cells. Two floors have been fitted enabling perfect separation of races, and as each floor has four cells, two on-each side opening into a central exercise, or prisoner's, corridor, and as each cell is as independent of the others as are the rooms in a hotel similarly artanged, it is possible to make further a perfect classification of the prisoners, but it will hardly be necessary for years to assign so many to a compartment.

These cells with their central exercise or prisoners corridors, are neste together and enclosed on all sides and below and above with a burglar proof grating, and once incarcerated the whole jail life of the times from the jailer's corridor

C.

Lack of space prevents reference to the many special features of the jail construction, which are the result of many years of experience and investigation, but the cage material is a combination of tensile or "blow proof" steel and crucible or "saw proof" steel, and the report of Peck's best metal worker, Robert Barns, appointed by the Board of Commissioners to fully test every tool proof bar in these cells, established the fact that every one, agregating upwards of a thousand, has had seven trials, and is tool proof and satisfactory.

The Manly Manufacturing Co., of Dalton, Georgia, the only jail builders in the South, who contracted for and completed the entire work, state that this is the first instance in which such careful scrutiny has been given by county officials.

Those of the tax payers who are capable of judging the work, say it, is undoubtedly creditable to all concerned, and pleases many of those who have examined it, and **FIMES** gives this sketch and these illustrations for the benefit of those who can not make a personal examination of the building.

## Dunmore.

Everything seems to be on the move. Mr. Isaac Klein and sou moved on their farm ; Mr. John Dressard, of Frost, moved this week to Beverly ; Rev. S. L. Potter moved to his new field of labor ; we up. derstand that Rev. Maxwell will be in this week. Even the postoffice was moved from Swecker's to the store at Dunmore. If some men owned the whole world they would termediate department. Here are not be satisfied unless they owned a potato patch on the other side. Marlinton men stand a poor chance with some people in this end of the

> We see some fine improvements in Green Bank. Messrs. J. H. Corry and W. H. Hull are putting in fine sidewalk in front of their premises.

Mr. J. P. Wooddell will start Wednesday for his spring goods; Mr. George D. Oliver is in Baltimore this week laying in his spring and summer stock.

Marion Gum has moved to Frost and will open up a new store.

Mr. Ed. McLaughlin is able to be out again.

A Sunday School has been organized at Baxter Church, with Mr Ed. McLaughlin as Superintendant. let all attend.

Some of our roads need work badly. The big rains played thunder with them.

Simmers & Knicely moved their eawmill to C. L. Moore's, on Browns Creek.

Mr. John Beverage is hauling lumber for his new house.
